## Flower Extending Round Dining Table

2017

### FINISHES

Top Finish - Fenix

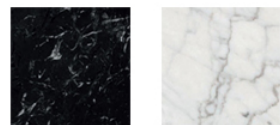

White Fenix    Black Fenix

Leg Finish - Wood

Walnut

Base Finish - Marble

Marquina

Carrara

An exciting collaboration with two Masters of world design, born out of a challenge: to create an extendable round table that was beautiful both closed and open. The flat surfaces slide without the use of runners, thanks to a technical solution that is also aesthetic: a movable arm that is reminiscent of a Roman crane.

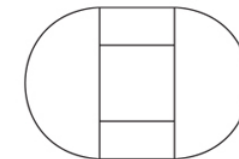

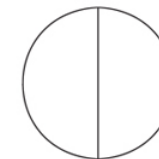

Top and extension are made of particle board panels veneered in Fenix NTM® and edged in Canaletto walnut. The extension leaf is veneered in Canaletto walnut in the central part. Legs in solid canaletto walnut. Marble base
