Stainless Steel

MATERIALS

- Glass
- Mirror
- Steel

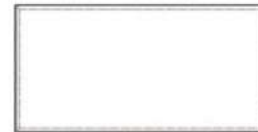

Donald - Series of parallelepiped-shaped coffee tables, created in 3 + 3 mm (1/16" + 1/16") thick laminated glass, perfectly bonded at 45 °, available in three sizes and in the twelve colors of transparent colored glass. The mirrored base is finished on the perimeter by a thin profile in "supersilver" stainless steel, which protects the glass from impact. The parallelepipeds can therefore be placed side by side to create articulated larger compositions or can be used separately as single elements.

Available Dimensions: L x D x H
