

FRAGMENT

Design Nendo

FINISHES

Mirror Finish (Double-Sided)

Extralight Mirror

Frame Finish

Brushed Aluminum

MATERIALS

- Glass
- Metal

Fragment Table - Screen with a special checked decoration on double-sided mirror. Two perpendicularly checked crystals are applied to a double-sided frame in polished brushed aluminum, separated by a gap of a few centimeters. These objects create a game of mirrored reflections, coverings and transparencies that deceive the observer, dissimulating and confusing the objects reflected from the ones screened and vice versa. The screen is made of hinged modular panels.

Available Dimensions: L x D x H
