

## Pianca Tobias Sectional

Tobias is a modular sofa with a simple, comforting shape and subtle detailing for an added glamorous touch. Armrests, backrests and poufs all have co-ordinating vertical stitching. This unusual detail creates elegant glints of light on the surfaces, revealing a distinctive, sophisticated design feature. The various modules – side, corner, central, pouf and chaise longue – let you create a custom arrangement that will look fabulous wherever it goes. The fabric version sofa covering, custom picked from Pianca's textile collections, is completely removable.
