### Contralto Coffee & Side Table In Burnt Oak/Titanium/Terrazzo Stone :

The latter all share a common specific detail giving them their distinctive character: a terrazzo plinth serving as the base supporting a sleek, slender metal stem that has a series of elements branching off it at the ideal height for practical use. All shelves and set-down spaces are made from turned and smoothed ash to provide a lovely tactile quality and prevent damage of any kind to whatever item of clothing or other object is placed on them, no matter how delicate.

**Overall Dimensions:** D x H
