### FINISHES

Base + Frame

White Frame  
White Shade

Graphite Frame  
White Shade

### MATERIALS

- Aluminum
- Fabric

MrX is a new and special idea designed by Marco Acerbis. Allowing you to create shade outdoor with a space-saving element and a unique design in Talenti style, MrX is an architectural concept that takes its cue from classic pergolas and sunshades, revolutionizing the structure. The structure is made of extruded aluminum and it is available in a variety of colors.
