

What is Auto-PAY? (Optional)

Auto-PAY is an easy to use feature that allows you to setup credit card and/or e-Check payment profiles. Auto-PAY makes it easy to pay your open invoices automatically on the day they are due. With Auto-PAY, you can save time and avoid late fees. Once activated, all future invoices will be paid automatically on the due date. You can easily manage the Auto-PAY feature too. You can turn it on and off as needed. Auto-PAY can only be activated once you've setup at least one payment profile -- a credit card (credit card number, expiration date, etc.) or e-Check. The Auto-PAY feature is optional and available for either credit card or e-Check.

After Auto-PAY feature is activated:

The screenshot shows a web browser window displaying the 'Manage Payment Profiles' page in the Striven system. The page title is '#795164574 - DELAWARE BU... Manage Payment Profiles'. The left sidebar contains navigation options: DASHBOARD, CUSTOMERS, PAYMENT PROFILES (selected), TRANSACTIONS, OPEN BALANCE, OPPORTUNITIES, SALES ORDERS, PROJECTS, TASKS, and ASSETS. The main content area is divided into two sections: 'PAYMENT METHODS' and 'MANAGE AUTOPAY'. The 'PAYMENT METHODS' section shows a single entry for a Visa card ending in [REDACTED] and an 'Add New' button. The 'MANAGE AUTOPAY' section, highlighted with a red box, displays the message: 'You are enrolled in AutoPay.' Below this message is a card for the same Visa card with a green checkmark icon and an 'X' icon. At the bottom of the 'MANAGE AUTOPAY' section, it states: 'Future invoices will be paid automatically on due date'. The browser's address bar shows the URL 'dbiglobaldemo.customers.striven.com/6689/payment-profiles/'. The Windows taskbar at the bottom shows the time as 7:48 AM on 4/23/2020.
