# Day 1: Measurements

The most important part of taking your measurements is making sure they are in the same spot each time. Take a photo to help you remember where you measured.

Take these measurements weekly.

1. Weight: Use the same scale each time
2. Waist: Measure at navel
3. Thigh: Measure 6 inches above knee
4. Hips: Measure across hip bones
5. Bicep: Measure half way between armpit & elbow crease

Take your before photos to track your progress! Try to take a weekly picture in the same setting each week.
