

## INSTRUCTIONS GUIDE

MARCUS HANUY's 24K Gold-Plated Signature Screwdriver is a multi-functional device used to interchange your hardware. It can also be attached to items such as your bag, backpack or keys using the leather strap provided.

1. Remove the screwdriver from its holder.
2. Insert the screwdriver into the hole, loosen the screws on both sides and remove the hardware piece.
3. Carefully align the holes on the hardware plate with the holes on the strap, insert the screws using the screwdriver head and screw into place. Take care not to screw too tightly to avoid difficulties when removing later. Extra screws have been provided for your convenience.
4. Enjoy accessorizing and wearing your MARCUS HANUY sneakers.

Remember: your hardware is handcrafted, so please handle carefully in order to extend the piece's life. Please do not attempt to use any other screwdriver.
