ENDURO-COLOR

L I N E R G L A Z E S

Restaurant quality dinnerware glazes from Coyote. Engineered for durability these glazes are resistant to crazing, staining, knife marking, scratching and chipping. They also have superior resistance to degradation from alkalis (dishwashing) or attack from acids and leaching (lemon juice etc.). If you are interested in a durable, stable liner glaze for your food ware your search is over!

Enduro-Color glazes are great for any surface needing a beautiful, enduring finish. Their toughness makes them ideal for kitchen backsplash and counter tops, outdoor sculptures or mosaics, anywhere a durable glaze is preferred.
