

How to use French Dimensions™

- 1. Apply with squeeze bottle.
- 2. Maintain steady squeeze pressure.
- 3. For greenware application, fire to shelf cone 04. Apply glaze, stilt and fire to shelf cone 06.
- 4. For bisque application apply over glaze that has dried or under a glaze. Let French Dimensions dry before glaze application, then stilt and fire to shelf cone 06.

Tips & Techniques

- 1. Popularly used with the stained glass technique. Create design outline on greenware; fire to shelf cone 04; fill design with various glaze colors; glaze fire to shelf cone 06.
- 2. Do not touch bottle tip to ware (this may cause the French Dimensions to flatten).
- 3. Use in combination with other glazes for intriguing looks.
- 4. Use to create lace effects.
- 5. Use to outline design on ware.
- Great for lettering, including From: and To: in birthday gifts.
- 7. Great for making dots.
