

Speedball® MID-FIRE™

CONE
5 TO 6

Formulated in partnership with ceramic artist, Nancy Sowder, these glazes create magical mottling and reduction-like effects using just one color! Layer colors for even more unique variations. For use at Cone 5/6.

All colors carry the AP Seal unless otherwise noted. Speedball® Mid-Fire™ Glazes are certified dinnerware safe when used according to manufacturer's directions. Independent testing is recommended when multiple colors are used on a singular piece and/or prior to introducing into commerce.
