FEEDING GUIDELINES FOR DOGS

Transition to Isle of Dogs nourish™ food by gradually replacing your pet's current food, over the course of 7 days.

Daily portions are guidelines for an adult dog. Your dog's requirements may vary by age, activity level, breed and environment. If feeding more than once per day, divide daily portion by the amount of times fed per day. To blend with ultra-premium kibble, substitute 1 standard 8oz measuring cup of kibble with 1/2-3/4 cup of Isle of Dogs nourish™. **Pregnant & Nursing Females:** Feed approximately double the amount indicated over 2-3 feedings per day. Puppies: Up to 6 months, feed approximately 2-3 times the amount indicated over 2-3 feedings daily; 6-12 months, feed approximately double the amount indicated over 2 feedings per day.

Be sure to provide your dog clean fresh water at all times.

Feeding guidelines are based upon an 8-ounce standard measuring cup which holds approximately 3.2 ounces by weight of Isle of Dogs nourish™ food.

FEEDING GUIDELINES FOR CATS

Transition to Isle of Dogs nourish™ food by gradually replacing your pet's current food, over the course of 7 days.

Daily portions are guidelines for an adult cat. Your cat's requirements may vary by age, activity level, breed and environment. If feeding more than once per day, divide daily portion by the amount of times fed per day. If using as a food enhancer on top of another food be careful not to overfeed. **Kittens and pregnant or nursing females may consume up to 2 - 3 times the recommended amount per day.**

Be sure to provide your cat clean fresh water at all times.

Feeding guidelines are based upon an 8-ounce standard measuring cup which holds approximately 4 ounces by weight of Isle of Dogs nourish™ food.
