

10 must know dog grooming do's & don'ts

ISLE OF DOGS™

DO

DO feel free to bath your dog often. Isle of Dogs products are safe for use everyday!

DO massage your dog while bathing, feeling for any unusual lumps or bumps or tender spots.

DO make sure to remove any mats before bathing, as they will pull tighter when wet.

DO always use a conditioner after bathing, as it will add shine and reduce shedding.

DON'T

DON'T allow water to get into the ear canal during bath time.

DON'T forget to thoroughly rinse shampoo products from your pet's coat and skin. This is true of any dog shampoo.

DON'T leave dogs unattended in the bath tub, on the grooming table or in heated drying cages.

DON'T be afraid to ask the professionals for advice before attempting to groom your own dog.

DON'T forget to trim your dog's toenails, brush his teeth and check his ears frequently.

DON'T ever brush a dry coat. Always dampen or wet coat before running a comb or brush through it.
