Load the bowl with dried, ground botanicals

it is too full.

Extend the packing tool by partially unscrewing it from the top of

Air inlets

Screw the packing tool back in and place the plug into the bowl with the ceramic disc facing down.

Summary (details follow): Click: Function:

1x Quick Check battery level Hold Turn heater on

1x Quick & Hold Change to preset 1 & turn heater on 2x Quick & Hold Change to preset 2 & turn heater on 3x Quick & Hold Change to preset 3 & turn heater on

2x Quick Check current preset

3x Quick Check temperature for current preset
4x Quick Set Temperature for Current Preset

Check Battery Level:

Click the button 1 time quickly. The device will buzz between 1 and 5 times to indicate the battery level. 3 sets of 3 buzzes indicates the charge level is too low (<3.5V) Recharge

Buzzes	Battery Level	
5	High (above 4.1V)	
4	Medium-High (3.95V - 4.1V)	
3	Medium (3.8V – 3.95V)	
2	Medium-Low (3.7V – 3.8V)	
1	Low (below 3.7V)	

immediately to prevent battery damage! 3 sets of 4 buzzes indicates the charge level is too high (>4.3V), please check charge!

Turn Heater On & Draw:

Hold the button down. The device will buzz quickly 1, 2, or 3 times to indicate the current preset as the heater starts to heat up. When it is close to the preset temperature it will buzz 1 time again to indicate that the unit is ready for a draw. Continue to hold the button throughout the draw as the heater will hold the temperature at the preset level. The heater turns off whenever the button is released and will buzz once shortly thereafter to indicate shutdown.

Change to Preset 1, 2, or 3 and Turn Heater On:

Click the button 1, 2 or 3 times quickly to select preset 1, 2, or 3 then hold down the button. The selected preset will be saved and the heater will turn on.

Check Current Preset:

Click the button 2 times guickly. The device will buzz quickly 1, 2, or 3 times to indicate the current preset.

Check Temperature for Current Preset:

Click the button 3 times guickly. The device will give 2 sets of buzzes. The 1st buzz gives the hundreds place and the 2nd buzz gives the tens place (in degrees F) as shown in the table to the riaht.

Set Temperature for Current Preset:

Click the button 4 times quickly. The device will buzz back 4 times quickly. Using the table above, select the temperature by clicking as indicated. For example, to set the temperature to 390, click 4 times to start and wait for 4 buzzes. Then click 3 times and wait for 3 buzzes back. Then click 9 times to finish.

Temperature vs.

Buzzes/Clicks:

Buzzes/Clicks	Temp F (C)
2 then 5	250
2 then 6	260
2 then 7	270
