## Multifiber Connectors

- › Multifiber connectors can be used in many applications, including FTTH, FTTA, data centers, ROADMs, etc.
- › Common types include the MPO, MTP<sup>®\*</sup> and OptiTip<sup>®\*</sup>

*\* MTP is a registered trademark of US Conec, and OptiTip is a registered trademark of Corning Cable Systems*

Inspecting multifiber connectors requires a special inspection tool. A scanning wheel is used to inspect each fiber individually. MT ferrules may house 4, 8, 12 or more fibers.
