

Dual Chamber Modular Plug Crimp Tool

7868 CT Series

- Crimps RJ11/RJ12 6-position and RJ45 8-position modular plugs
- Front-load design is ideal for crimping in confined areas
- Durable all metal construction with comfort grips for easy crimping
- Color coded interchangeable dies are keyed together to guarantee precise alignment
- Notched strain relief pushers mate precisely with strain relief latches allowing them to engage properly without damage
- Cuts and strips at oval cable
- Replaceable blade cuts UTP cable and strips UTP jacket
- Compound action produces high crimping forces with minimum hand pressure
