

COLLARED  GREENS

LIVE AMERICAN MADE

2017 SPRING

# ABOUT COLLARED GREENS

We at Collared Greens are proud to be the first and only American made, eco-conscious lifestyle clothing brand. The Collared Greens brand combines our passion for timeless style with our commitment to support American manufacturing and the environment around us. We are always American Made, and continuously strive to deliver on the promise of premium quality American craftsmanship, creativity, and conservation.

Team CG is ever aware of the impact that we as consumers and creators have on our environment. We are therefore dedicated to giving back to the communities where we live, work, and play through our conservation initiative, CG/24, and through our partnership with 1% For the Planet. Each year, we are proud to donate one percent of our total sales to organizations dedicated to protecting and conserving the great American outdoors.

Our signature array of men's clothing and accessories are timeless and classic with a nod to modern style and comfort. Thank you for your support of Collared Greens and the American Made movement.

Live American Made,

**Team Collared Greens**

## WHY COLLARED GREENS ?

- **Made in America** - All of our products are proudly crafted in the USA, thus supporting and creating American manufacturing jobs.
- **Conservation** - At least one percent of all revenue is donated to support and conserve the great American outdoors through our partnership with 1% for the Planet and CG/24, our in-house conservation initiative.
- **Premium Quality Products, Guaranteed** - CG guarantees the quality of our products through our wide-open guarantee policy. Our customers deserve to feel confident in the purchases they make with us.
- **Sustainable Manufacturing** - Our products are manufactured using environmentally sound methods and processes. We also measure and offset our carbon footprint throughout the year to minimize the impact we have in our day to day operations.

# OUR PRODUCTS

In order to create American jobs and support the U.S. economy, we source all of our products here in the United States. Below is a map showing where each product offering is manufactured.
