

REPTILIA COLLECTION

by Carlota Guardia

What makes something magic?
What makes your eyes open
with fascination?

Reassess the past? Admiration
We explore the symbolism
based on the Egyptian flora and
fauna world.

Perhaps the silent, and hidden
life of the snakes, together
with the venom poison, was
the reason why, from very early
times, they had a conjunction
of mixed feelings, associating
them with the divinity.

Mysterious and dangerous
snakes can also be protective
amulets aided by the power of
gems.

Juxtaposition between texture
and color are the basis of
REPTILIA COLLECTION

"Egyptian jewels reflect the spirit of a delicate and elegant people"
