

B.I.P. Code #8[®]

Item No. 34502

Betadine, Iodine, Povadine Stain Remover

The ONLY Betadine, Iodine and Povadine Stain Remover guaranteed to remove iodine stains, betadine stains and povadine stains from any surface.

B.I.P. CODE #8[®] is especially formulated for removal of iodine based spots and stains from carpets, nursing uniforms, scrubs, patient clothes and all clothing and shoes, drapes, tile floors, examination tables, operating room tables, emergency rooms, outpatient and G.I. rooms. Leaves no yellow stain or residue. Removes stain completely even on the oldest betadine stains.

Directions for Use

For Clothing and Carpets:

1. Spray B.I.P. CODE #8[®] on stained area until thoroughly wet.
2. Allow to soak for approximately 10 minutes (or less if stain disappears).
3. Rinse with clean water.
4. Wash clothing, drapes or scrubs.
5. Use prior to shampooing carpets.

For Tile Floors and Other Hard Surfaces:

Use as received. Do not dilute.

1. Remove any floor finish, etc. that may be covering the stain.
2. Apply B.I.P.CODE #8[®] directly to the stain.
3. Allow enough time to remove stain.
4. Reapply if necessary.
5. Rinse with clear water or germicide cleaner.

CAUTION: Do not take internally. Avoid contact with eyes. Keep out of reach of children. Antidote: Eyes – wash with water for 15 minutes or more. If ingested, drink copious amounts of water and milk. In all cases – get prompt medical attention. After skin contact, rinse immediately.
