

# Urban Access Sling – Product Instructions

For more information please visit: [www.thinktankphoto.com](http://www.thinktankphoto.com)

## ZIPPER LOCK Secure the side panel zippers for travel.

- Step 1:** Position side panel zippers at the top of the bag as shown.
- Step 2:** Feed one zipper pull through the black web loop.
- Step 3:** Once the grip is pushed through the loop, cross the other slider through the web loop

## RAIN COVER ATTACHMENT

- Step 1:** Retrieve rain cover from pocket in bottom of back panel.
- Step 2:** Pull rain cover around front of sling with blue leash connected at bottom.
- Step 3:** Position the black leash under the shoulder strap and attach to the red loop.

## WAISTBELT ATTACHMENT

- Step 1:** Follow the first two steps of tripod attachment for use of the double gate keeper.
- Step 2:** Attach waistbelt to webbing loops on bottom of bag. Be sure buckle is facing outwards before attaching.

## SLINGS BOTH WAYS

Choose your sling preference to reduce shoulder fatigue on long outings.

**Step 1:** For left shoulder carry, position the attachment on the bottom of the bag to the right (R) side when facing the back panel.

**Step 2:** For right shoulder carry, position the attachment on the bottom of the bag to the left (L) side when facing the back panel.

**Step 3:** Be sure to push the metal swivel past the hook/loop.

**Step 4:** Press the hook/loop down to prevent the shoulder strap from sliding out of position.

**Step 5:** When slinging the bag, be sure opposite panel zippers are closed tightly.

## TRIPOD ATTACHMENT

**Step 1:** Locate the adjustable tripod strap provided. To open the double gate-keeper buckle, press the gate inwards then depress the top plastic bar to release the gate.

**Step 2:** Slide the opened double gate-keeper buckle through the webbing loop and secure the gate by depressing the top plastic bar.

**Step 3:** Connect the tripod strap to the webbing loops on the Urban Access Sling bag. Insert 2–3 tripod legs into the outer pocket. Wrap the tripod strap around the top of the tripod to minimize weight shift.

We warranty our products against manufacturing defects.
