

RED BLACK BLUE AQUA

SE-E3 (Red)

Music Fits Like a Second Skin

Hit the ground running with the SE-E3, a super-comfy sports headphone that serves punchy sound at a nice price. Earhooks are made from supple elastomer that won't chafe when you're exercising. This flexible material conforms to your ear-shape and keeps headphones secure for a good seal. Ear-tips in S/M/L sizes are included. Because the cable runs behind the ear, it's kept clear of your hands and doesn't bounce as much while you move. Full-range dynamic drivers boost the beat as you work out with IPX-2 water resistance letting you train in most weather. Weighing 16 grams (0.51 oz.) without cable, these affordable headphones fit like a glove and keep the tunes flowing as you stay in shape.

Excellent Comfort

Pioneer put comfort first when designing the SE-E3 headphones. Rubbery elastomer earhooks are so soft you'll forget them, even on long runs, while silicon ear-tips in three sizes assure a correct fit for you.

Secure Fit

Shake off pounds, not your headphones—supple elastomer wraps around the ears and doesn't shift during vigorous activity. Cable runs close to your body, and combined with unique earhook design, won't pull the headphones out of your ears when moving.

Stylish and Lightweight

The featherweight SE-E3 comes in a selection of four colors, from bright red to classic black. The 1.2 m (4 ft) cable is perfect for smartphones and mini MP3 players tucked in a pocket or pouch.

Water Resistant to IPX-2

Run in light rain without problems thanks to IPX-2 water-resistant design. As a sports headphone, no amount of sweat will stop the music. Walk the dog, hit the gym, and go hiking with your favorite tunes.

SE-E3

DESIGN & ERGONOMICS

- › Excellent Comfort with Soft and Flexible Elastomer Earhooks
- › Secure Fit for Running and Gym Workouts
- › Over-the-Ear Design Reduces Cable Touch-noise
- › Water- and Sweat-resistant to IPX-2 Standard
- › Lightweight Materials Reduce Fatigue
- › Ear-tips Supplied in Small, Medium, and Large Sizes
- › Choice of Red (R), Blue (L), Black (B), and Aqua (GR) Color Schemes
- › Tangle-resistant One-piece Cable

AUDIO FEATURES

- › Full-range 10 mm ($13/32$ ") Dynamic Drivers for Wide-range Sound Reproduction
- › Easily Driven with Smartphone or Mini Audio Player
- › High Sensitivity and 8 Hz–22 kHz Frequency Response

CABLE FEATURES

- › Lightweight and Tangle-resistant
- › Versatile 1.2 m (4 ft) Length Suits Pocket or Pouch
- › 3.5 mm ($1/8$ ") Stereo Headphone Jack

SPECIFICATIONS & ACCESSORIES

- › Driver Design: Fully-enclosed 10 mm ($13/32$ ") Dynamic Driver
- › Impedance: 16 Ohms
- › Frequency Response: 8 Hz–22 kHz
- › Sensitivity: 100 dB
- › Maximum Input Power: 100 mW
- › Weight: 16 g (0.51 oz.) Not Including Cable
- › Cable: 1.2 m (4 ft) Cable
- › Connections: 3.5 mm ($1/8$ ") Stereo Plug
- › Supplied with Silicon Ear-tips (S/M/L)

Carton Dimensions: (W x H x D) 85 x 148 x 35 mm (3.3" x 5.8" x 1.4")
