

Spiral-Wound Activated Carbon Cartridges

BBC-150-AC for use in housing model # BBH-150

Model: BBC-150-AC

Big Bubba® spiral-wound activated carbon cartridges are excellent for the simultaneous removal of tastes and odors while providing particulate filtration and dirt holding capacity of a 5 micron sediment filter.

Features

- High chlorine, taste and odor reduction
- Efficient sediment filter with large dirt holding capacity
- No release of carbon fines
- No channeling
- No bypass
- FDA-compliant materials

Specifications

Micron Rating	5
Flow Rate	12gpm (max.)
Capacity	200,000 gallons*
Percent Reduction	90%*
Pressure Drop at 12 gpm	2 psi
Weight	10 lbs.

*1 ppm chlorine at 12 gpm.

Warning do not use on a water supply that is microbiologically unsafe or of unknown quality without proper disinfection before or after the filter.
