NATURAL BED PILLOWS

SLEEP BETTER

Getting a good night's sleep is crucial and allows our bodies and minds to rest, repair, and re-energize. A comfortable pillow is essential for sleep and that is why Bucky only offers natural filled buckwheat and millet hull bed pillows.

- Hull fillings do not compress over time and distribute weight evenly, alleviating pressure and maintaining proper spinal alignment
- Hulls are temperate, they do not absorb heat in summer or cold in winter
- Hulls allow air to circulate to keep you dry from excess perspiration or humidity
- Naturally conforms to every curve of your body
- Adjustable – you can customize height and density by removing or adding hulls
- A super soft, zippered pillowcase that is machine washable
- Eco-friendly and hypoallergenic

Buckwheat & Millet pillows provide firm, breathable support, reducing strain on your neck and back.

The position you sleep in has direct effects on your health. Sleeping position can affect your respiration, spinal alignment and even wrinkling of the skin. There are proven ways to get a better night's sleep by using the right pillow, with the right amount of fill and sleeping in the right positions.

The main thing to keep in mind regarding your sleeping position and pillow is the proper support of your neck and spine. You want a pillow that conforms to and supports the curve of your neck with enough firmness to support your head without collapsing.

PRODUCT FAQ'S

WHEN SHOULD I REPLACE FILLING?

Over time, buckwheat hulls polish themselves like beach glass and actually become more supple and offer even better support. However, they lose a small percentage of their volume and at that time you might wish to add more hulls to return your pillow to its original plumpness. Millet hulls do not polish down but if your pillow does not seem filled enough at any time, more hulls may be added to customize your perfect fit.

ARE PESTICIDES USED IN ANY OF OUR FILLINGS?

Our buckwheat & millet hulls are pesticide and herbicide free. We also use no chemicals or radiation in the cleaning of our hulls.

ARE BUCKWHEAT & MILLET HULLS CLEANED?

Yes, our buckwheat and millet hulls are triple cleaned, raising the purity to 99.98%. No chemicals or radiation are used in the cleaning of our hulls.

I HAVE AN ALLERGY TO WHEAT CAN I USE A BUCKWHEAT PILLOW?

Buckwheat is not wheat. In fact it's not even a true grain. The buckwheat seed is actually the achene of a grass-like plant (related to rhubarb) thought to have originated thousands of years ago in Asia. Safe for those with gluten allergies.

ARE BUCKWHEAT AND MILLET HULLS HYPO-ALLERGENIC?

Yes! Less than .016% of people have a reaction to buckwheat hull pillows. That's 1 in 6000. Those who do experience this extremely rare reaction can expect itchy throat, watery eyes and/or runny nose. If you experience any of these symptoms, discontinue use.

HOW DO I CLEAN MY BUCKY?

Read and carefully follow the care instructions found on packaging or on the sewn in care label. NEVER wash any grain or grain hull filling. If you are uncertain how to clean your Bucky product, please email customerservice@bucky.com for more information.

IS MY PILLOW ADJUSTABLE?

Most bucky neck, bed, and back pillows have a hidden zipper that allows you to adjust fill levels for personalized comfort.

CAN I PURCHASE MORE FILLING?

Yes! You are able to purchase additional 1lb or 2lb bags of buckwheat or millet filling to replace filling or provide the perfect amount of fill for your favorite item.

CAN I MICROWAVE MY BUCKY?

Only our Body Wraps, Neck & Shoulder Wraps, Compact Wraps, and our Heart Warmer pillows can be heated. Please read and carefully follow all heating/re-heating/chilling instructions. Use with adult supervision only! If you are uncertain as to whether or not your pillow can be heated, please check the care label, packaging, or check the product's specification tab on the web site. If you still are not able to determine if your Bucky product is heatable, please email customerservice@bucky.com for more information.

HOW LONG SHOULD MY EYE MASK LAST?

If used nightly, your eye mask should be replaced every three to six months, about the same as your toothbrush! Any excessive heat or chemicals from facial creams or cosmetics may potentially wear down the fibers, and decrease the lifespan of the product. We recommend our customers wear these with a clean face and store them in a cool, dry area, away from direct heat.
