

# Beekeeping Club Flow® Hive Checklist

Welcome to our club support program! This checklist gives you an overview of all the ways we can help support your club and introduce your members to the joy of harvesting with a Flow Hive.

Please contact us on [clubsupport@honeyflow.com](mailto:clubsupport@honeyflow.com) with any questions or to access the support or resources highlighted below.

Happy beekeeping from Stu, Cedar and the entire Flow Team.

## JOIN OUR CLUB CREDITS AFFILIATE PROGRAM:

- **Join up for discounts on Flow products for your club**, and the ability to earn store credit. Simply enrol and then share your special affiliate link with your members.
- **Access a 15% discount** to purchase a Flow Hive for your club's apiary.

## CLUB EVENTS AND SUPPORT FOR NEW MEMBERS:

- **Organise a live Q&A** with Flow Hive inventors Stuart & Cedar Anderson for your next club field day or event via video call. Internet access is required on site for this option.
- We've compiled handy resources to help **effectively promote your event**. We can also help to publicise your event through our monthly newsletter directly to our Flow community. Contact us for promotional resources and support.

## CLUB FUNDRAISING

- **Use Club Credits to purchase fundraising equipment** for your next event. For every 10 Flow Hives purchased with affiliate links, your club will receive enough credits for a Flow Hive - a popular prize for raffles and lucky door prizes.

## WE'D LOVE TO SHARE YOUR JOURNEY

- **Please feel free to share a picture or two** of your club members assembling your Flow Hive, or your first honey harvest so that we can inspire others in our online Flow community. Simply email images through to [clubsupport@honeyflow.com](mailto:clubsupport@honeyflow.com) along with a caption and permission to share on socials from anyone included in the picture.
- **Does someone in your club write beekeeping content** for your newsletter? We are looking for 500-1000 words on beekeeping topics that can be shared with the Flow community via our online blog, with credit to the author and promotion of your club. If you are keen to contribute, contact us for our blog guidelines.

## EDUCATIONAL RESOURCES:

- **Order your handout materials package**, which includes our Bee-friendly gardening fact sheet, Welcome to Beekeeping with Flow Hive flyer, Flow Harvest Checklist, Stickers, Pests & Diseases Sheets and more.
- PowerPoint presentations are available to **support your club's education on beekeeping** with a Flow Hive, or to help create a new course or workshop. Please let us know if you would like to access these resources.

**Let us know any other ways we can support your club. We're here to help!**
