Introduction

Sincerely thanks for your generous support and selecting Air Essential. This product is a wireless charging device with stylish design, high quality, and extended durability. It nicely supports fast charging. And also it is a practical device that simplifies your charging. Believe it would bring you the best Charging experience.

Key Features

- Compatible with all Qi-enabled devices.
- Engineered with premium aramid fiber.
Comfortable to hold in hands.
- Safe and reliable. The Air Essential is designed to provide overvoltage protection, under-voltage protection, over-temperature protection, overcurrent protection, short-circuit protection and FOD.
- Optimized Fastest Charging. Supports both 10W fast charging for Samsung phones and 7.5W fast charging for iPhone.

Package Includes

1. Air Essential *1
2. Charging Cable *1
3. Document Kit *1

Compatible Devices

- iPhone 8/8 Plus/X/Xs/XR/Xs Max/11/11 pro/11pro Max
- Samsung S7 edge /S8 /Note8 /S9 /Note9 /S10 /S10+ /S10e/Note 10/Note10+
- AirPods II
- All the other Qi-enabled devices

Quick Guide

- Plug the adapter into the port of power socket.

It is recommended to use an adapter that supports the PD or QC protocol and has a power of 18W or above.

- Connect the adapter to Air Essential with the Charging Cable.

Connect the Charging Cable to the Air Essential' s USB port and to the power adapter' s USB port.

- Place your device on the Air Essential.

Place the device with Qi qualified in the middle of the charger. White LED will blink every second, which means wireless charging successfully. Power is transferred to your device via the Air Essential for wireless charging.

LED Lighting Indicator

- When the Air Essential connected with power supply, the LED1 and LED2 will be alternately flashed red and white about 2 seconds, then the red turns off and the white one turns on.
- When the phone is wirelessly charged by Air Essential, the LED2 indicator flashes as white. After it's fully charged both indicators will be always on.
- When the Air Essential is improperly used and detected FOD, the red indicator will be always on. When it's detected over-voltage or under-voltage, the LED1 will flash red once every second;

when over-current and short-circuit, the LED1 will flash red once every 2 seconds; when overheat protection, theLED1 will flash red once every 0.5 second.

Clean Tips

Use the reusable dust-free cloth to remove the oil, fingerprints, smudges and dirt with just a swipe.

Specification

Items	Specification
Width	89mm
Length	172.40mm
Thickness	12.40mm
Input Current	5V \approx 2A, 9V \approx 2A
Output Power	5W / 7.5W / 10W
Transmission Distance	\leq 8mm
Max Transfer Efficiency	75%

Warranty

The PITAKA Air Essential is warranted for 12 months from the date of purchase.

The Air Essential is warranted to be free defects in materials and function under normal use for the lifetime of the product. A defect is defined as an imperfection or flaw that is produced by a manufacturing error, including malfunction of the wireless charging or surface defects etc.

This warranty is non-transferable and covers only the original end-user purchaser. PITAKA will only authorize the warranty claim if the product was purchased from the official store or the authorized dealer.

MODIFICATION:

Any change or modification of this device will void the warranty.

Exclusion

Damages don't cover those resulting from abuse, not correctly maintained, alteration or misuse (including disassemble, drops), abnormal wear and tear, cosmetic damages that do not affect the functionality.

IMPORTANT

1. Please use the AC adapter included in the package to charge. If you are using a third-party adapter, please check and confirm whether the output is within the applicable range.
2. Do not keep the Air Essential in a high-temperature environment, including heat caused by intense sunlight or other forms of heat. Do not place it in fire or other excessively hot environments.
3. Do not keep and use the Air Essential in a humid environment.
4. Do not disassemble the Air Essential or attempt to modify it in any way.
5. Do not attempt to power the Air Essential with any connection other than the Type C connector.
6. Do not attempt to replace any part of the Air Essential.

7. All parts have gone through a thorough quality assurance inspection. If you find that your Air Essential is excessively hot, is emitting odor, is deformed, abraded, or is experiencing or demonstrating an abnormal phenomenon, immediately stop all product use and contact manufacturer.
8. If the Air Essential is intended by the purchaser to be used by a minor, purchasing adult agrees to provide detailed instructions and warnings to any minor prior to use, who agrees to indemnify manufacturer for any unintended use/misuse by a minor.

FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio

frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To maintain compliance with FCC's RF Exposure guidelines, this equipment should be installed and operated with minimum distance between 20cm the radiator your body: Use only the supplied antenna.
