

Sizing Guide

Sizing changes a lot between countries and brands, so grab a measuring tape and see what AnnaKemp size you are.

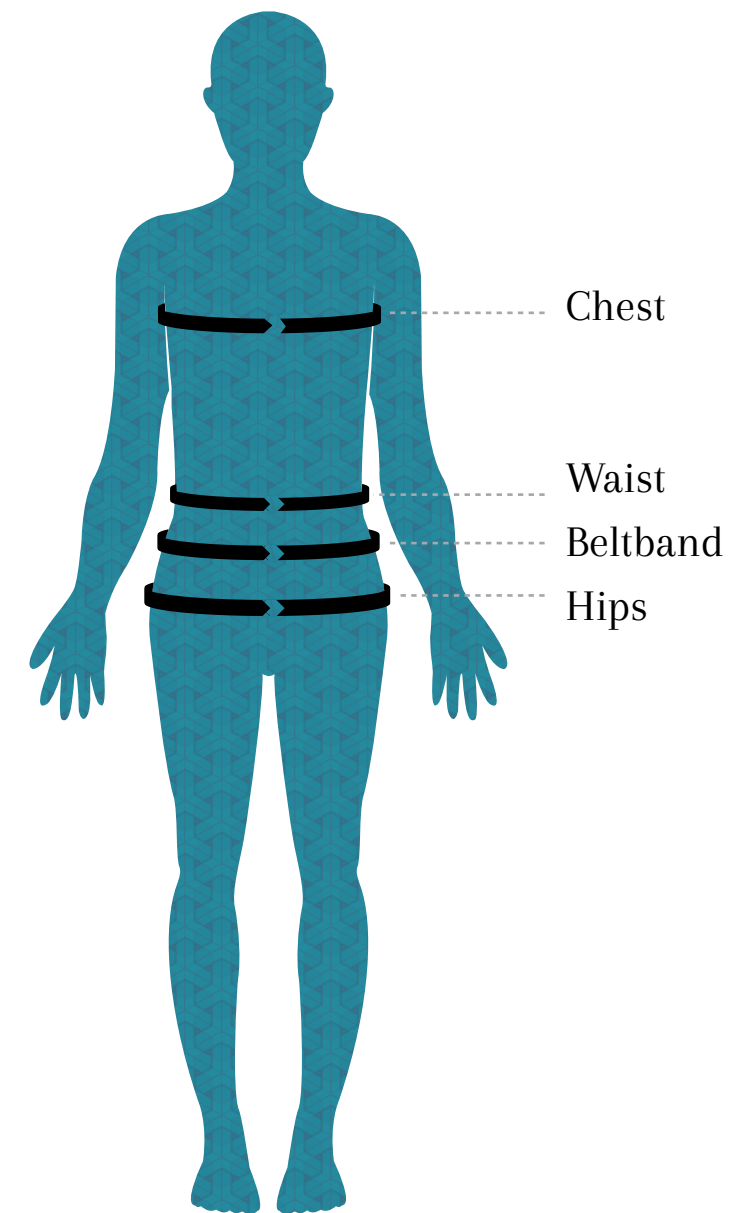

We find that just two measurements usually help to find your size: Chest for TOPS and Beltband for PANTS & SKIRTS.

To be more precise you can also measure your Waist and Hips.

All measurements are in centimetres

How to take your measurements

CHEST MEASUREMENT

Measure around the fullest part of your bust / chest, with the tape measure parallel to the floor. This measurement will assist you in determining your size for tops and dresses.

WAIST MEASUREMENT

Measure around the narrowest part of your natural waistline.

BELTBAND MEASUREMENT

This is the height that many models of jeans /pants and skirts sit on the body (i.e. where you would wear your belt on a classic modern pair of jeans). Measure around the hip bones, about 5cm under the bellybutton.

HIP MEASUREMENT

Measure around the fullest part of your hip and but, before the thigh begins to narrow. This measurement will help you determine your size for skirts, pants, & dresses.
