

# **GAR50** Body-Solid Multi Accessory Rack

*Body-Solid*<sup>®</sup>  
Built for Life

*Accessories sold separately*

## **GAR50** Multi Accessory Rack

The GAR50 Compact Accessory Tower is the ultimate solution for storage needs in small fitness rooms and homes. This tower features multiple levels providing ample space for organizing medicine and stability balls, resistance bands and tubes, jump ropes, foam rollers, yoga mats, and more. At the top level, you can easily store a single stability ball, wall ball, or medicine ball. The second level offers two wall or medicine ball holders, along with four pegs for resistance bands and tubes, jump ropes, and other accessories. The lowest level is best suited for storing foam rollers, yoga, and exercise mats. The GAR50 is a solid and stable storage tower weighing just 41 lbs making it easy to maneuver around a workout room. Despite the low overall weight, the GAR50 features all-welded foot caps ensuring maximum durability and reliability. The GAR50 Compact Accessory Tower is the perfect storage solution for those prioritizing organization, durability, and reliability in their workout space.
