#### Body-Solid - Olympic Bumper Plates

Body-Solid's new Chicago Extreme Bumper Plates provide extreme performance without breaking the bank. The Chicago Extreme Bumper Plates are the most durable plates in the Body-Solid lineup; featuring superior durability in any facility with a quality smooth finish and classic black color. Every plate is made to the IWF standard diameter of 450mm (17.72"). The OBPX plates have a thinner width than the other Body-Solid bumper plates allowing you to load more weight on the bar. The 1 year commercial warranty ensures your investment is protected.
