What is Spiritual Cleansing?

Spiritual cleansing (**Blockage Removal**) is an ancient practice with many different variations to remove negative energies and entities that cause spiritual blockages, disturbances, depression, negative thinking, negative feelings or emotions, hopelessness, anger, resentment, unhealthy relationships and other personal issues and hindrances. Spiritual cleansing can be done for loved ones, pets, your home, car, business and workspace. It will bring balance of mind, body and spirit. Spiritual cleansing can repel or destroy negative patterns.

Organic Herbs grown without manmade fertilization only contain vital nutrients from the elements.

Organic Herbs are used to heal spiritually. In order to connect to the Divine, you have to use Plants and Plant Materials in their natural state as made by the Creator of Creations.

Organic Herbs are used to heighten our spiritual vibration and strengthen our connection to the Divine.

Organic Herbs provide vital nutrients from the elements (soil, water, air and sun).

Essential Oils are Vital Fluids

Essential Oils are the concentrated essence of the plant which is considered the vital fluid and life blood of the plant. They are called essential because they are the substance of life. Essential oils are botanicals for the Spirit, Soul and Body. There are two ways the human body derives the benefits of essential oils, they are absorbed through the skin and inhaled through the nose. The molecules of these essential oils are so minuscule they are easily absorbed and when inhaled immediately begins the Spiritual and emotional healing process. The oils contain life power, intelligence and vibrational energy of the plants from which they are derived and imbued with the healing powers.

When using the Blockage Removal Wash the Essential Oils enter directly into your bloodstream through the pores. In addition, while washing you also inhale the Essential Oils through the nose which carries it directly into your lungs and then into your bloodstream. When the Essential Oils enter your bloodstream they cleanse, balance, energize and uplift the Spirit, Soul and emotions so that you can begin the spiritual healing process and remove negative energies.
