

DRØPLET

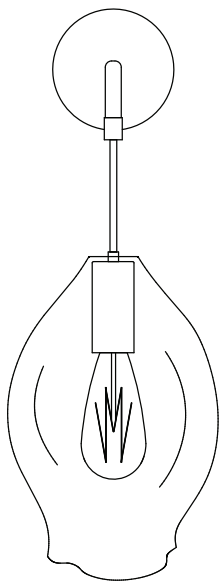

Designed and Handmade by Oliver Höglund

Molten hot glass shaped and hand-blown at one thousand degrees celsius. An organic warped teardrop shape made with quality Swedish clear glass to dress a traditional filament bulb.

The long filaments shine and refract off the contours of the DRØPLET wall light to give a unique one of a kind lighting design.

The free formation design ensures that no two pieces are the same, giving you a truly aesthetic piece for your space.

Hand Made in Currumbin, Australia.

TECHNICAL INFO

Type

Interior Use Only

Dimensions

Glass

Height: 240 - 260mm

Width: 140 - 180mm

Wall Plate

Round: 100mm Diameter

Square: 100 x 100mm

Black Fabric Cable: 500mm

Weight: 1.0kg

Materials

Glass: Clear / Grey

Lampholder Finish: Matte Black / White

Suspension - Black / White Fabric Cloth

Input Power

240V

Power Consumption

25W (LED Option - 6W)

Colour Temperature

2700K

Lumen Output

160 (LED Option - 560)

Dimming

Yes
