

Statistics Learning Centre Workshop: Empowering all teachers to teach statistics

Our philosophy is to empower all teachers to teach statistics confidently and enthusiastically, supported by current research in teaching and learning statistics.

Curriculum range

This hands-on workshop is aimed at teachers and teacher-aides of students in Years 1 to 8 and teachers of students at curriculum levels 3 and 4 at secondary school.

Topics covered:

Graphs and Investigations

- Helping students to make comments about data and distribution
- The statistical inquiry process

Rich tasks

- Explorations and investigations using data cards
- Cross-curricular activities

Clarifying the curriculum and content

Participants will have the opportunity to ask questions about the curriculum progression and the content, including "horizon knowledge" of where the curriculum goes next.

Note that we will be using StatsLC data cards and graph cards in the workshop, but all activities can be done without purchase.

Practical details

Afternoon tea will be provided. Participants will be notified of the venue and other details such as parking, nearer the time.

The cost is \$75 per teacher. The third teacher from the same school is free. You will be invoiced one week ahead of the workshop.

We do NOT cover probability in this workshop.

Presenters' credentials

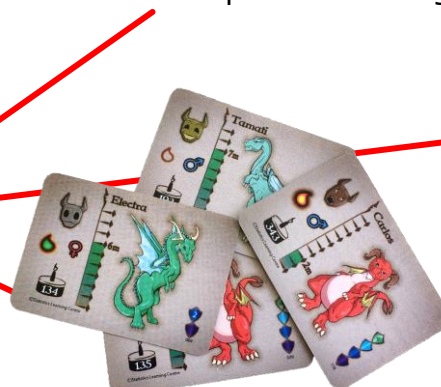

Between them the directors, Dr Nicola Petty and Dr Shane Dye, have over forty years' experience developing high quality teaching and learning resources. Their resources and videos on YouTube are used in schools throughout New Zealand and the world. StatsLC is known for its innovative and engaging style.

Registering for a workshop

Go to **www.StatsLC.com** and click on "Workshops". This also gives access to our free and paid resources through our shop.
