2. Dual USB-A output ports of 5V/2.1A
3. Automatic power-off
4. Optimized charging/discharging efficiency: up to 85% conversion rate for USB
5. Overcharge and over-discharge protection
6. Input overvoltage protection and output overvoltage protection
7. Output current protection and short circuit protection
8. Intelligent LED battery indicators
9. Built-in LED lantern flashlight for dark or low-light environments
10. Portable design and convenient to use on the go
11. Suitable for smart phones, iPod, iPad, Camera etc.

PACKAGE CONTENTS

- 1x Power Bank
- 1x Micro USB cable
- User's Manual

PRODUCT OVERVIEW

1. **Power Button:** Push the Power Button to turn on/off.
2. **USB Output Ports:** Connect to the device with a USB cable.
3. **Micro USB Port:** Connect to PC or a wall charger (sold separately) for charging with a USB cable (sold separately).
4. **Four LED indicator lights**
5. **LED Lantern Flashlight:** Built-in LED lantern flashlight for dark or low-light environments is perfect for reading a book or on your tablet or phone while charging late at night. Turn on by quickly double clicking the power button.

OPERATION

1. Charge the Power Bank

- Plug into wall outlet using a wall charger (sold separately) with the included Micro USB cable.
- You can also connect to your computer to charge the Power Bank.

Note: The Micro USB Port is intended for charging the Power Bank only. It will not charge other devices through a Micro USB Port.

2. Charge your Devices

- Connect your devices with USB cable (sold separately).

OPERATION NOTES

- Please make sure the Power Bank is fully charged before use.
- When charging with this Power Bank, please light up the screen on your device and check if the charging icon displays correctly.
- Please use a matched cable to charge your Power Bank or other devices by connecting to the Output 1 or Output 2 USB Ports only.
- When the battery is low, the LED lights turn off while charging. Recharge it as soon as possible.
- Once fully charged, please unplug the charging cable to avoid power loss.
- When the Power Bank enters protection mode, usually during a short circuit, please use an external charger to charge it, and then it will be ready to use again once fully charged.
- Keep away from open flames: stoves, campfires, candles, etc. Do not expose to temperatures above 140°F (60°C).
- Do not drop or soak in water: beaches, swimming pools, bathtubs, etc.
- Do not wash the Power Bank with any corrosive cleaner.
- Do not disassemble, squeeze, or puncture this power bank to avoid electrolyte leakage of lithium ion battery.

REGULATORY COMPLIANCE

Notice for FCC

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Modifying the equipment without Omnigates' authorization may result in the equipment no longer complying with FCC requirements for Class B digital devices. In that event, your right to use the equipment may be limited by FCC regulations, and you may be required to correct any interference to radio or television communications at your own expense.

This Equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radio Notice for FCC

Caution

This FCC Part 15 radio device operates on a non-interference basis with other devices operating at this frequency. Any changes or modification to said product not expressly approved by Omnigates, including the use of non-approved antennas, could void the user's authority to operate this device.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
