Dispenser DP 30
From the specialist for sturdy pumps
Universally usable Infiltration Pump

The Dispenser DP 30 is a universally usable and controllable infiltration pump which is highly suitable for deployment in tumescent applications and in vein treatments.

The percentage infiltration amount is controlled using the rotary potentiometer and the foot pedal.

- Best price/performance ratio
- Universal and flexible applicable
- Easy handling with low maintenance effort
- Time saving compared to time consuming injection of the infiltration quality
- Continuously variable and precise adjustable infiltration performance
- The adipolysis process is decisively improved; subsequent fat suction is significantly easier
- Reliable, approved and stable technology
