

Della's Kitchen offers an easy-to-use bridal registry for our unique, quality kitchenware. We are a small business and **tickled pink** that you would choose us for a registry.

1. How does the Registry work?

The DK registry is all conducted online. Brides register and shop online to add products to the registry. Guests search for names like any other registry and purchase online.

2. How does the Bride receive her gifts from the registry?

- Guests choose to have the items shipped directly to themselves.
- Guests choose to have the items shipped directly to the Bride. When registering, the Bride provides a delivery address.

Note! The time of delivery may be chosen by the Bride to accommodate timing and address preferences.

- Local Brides have the option of local pickup to save guests shipping charges. This also saves the MOB from extra work collecting gifts after an exhausting wedding day.

3. Do you have to be local to Huntsville, AL to participate?

No! We have had Brides in several states use our registry successfully.

4. Can I pick up a gift if I need it quickly?

Yes, local residents can message us for local pickup options. Email or reach out to us on social media.

5. If I'm shipping to the Bride, will the gift be wrapped?

We do not currently offer gift wrap, but take care to package your gift as neatly as possible with tissue paper and baker's twine depending on the item.

Tip! Add an enclosure card to your order (we offer gorgeous kitchen themed enclosure cards Made in America). At checkout in the Notes section, include your short personal note.
