## **DUPLEX®** Container

## Ready When You Are

"PEEL"
Peel foil strip from drug chamber.

"SNAP"
Fold container
just below diluent
meniscus and
squeeze until seal
between diluent and
powder snaps open.

"SHAKE"
Shake diluent and powder thoroughly to mix.

"SNAP"
Squeeze folded
container just below
the solution meniscus
to snap the second
seal and release
liquid into the port.

"GO"
Remove foil tab from set port and spike bag. Hang bag on IV pole.

Refer to product package insert for complete directions for use and prescribing information.
