Solution Warmer
Ideal for keeping your patients comfortable while prepping the skin for surgery, the solution warmer has an adjustable temperature range of 90 to 120 degrees Fahrenheit. Two 8 oz. bottles are included.

Order #: Description
SW: Solution Warmer

Specifications:
- Tank Capacity: 2.3 gallons
- Outer Dimensions: 20.6" x 7.5" x 6.2"
- Inner Dimensions: 19.9" x 5.2" x 6"

Ultrasonic Cleaning Machine
The ultrasonic cleaning machine is a necessary component for obtaining optimal results in your cannula cleaning process. It is a stainless steel tank with rounded corners, and includes an instrument basket, cover lid, and cleaning solution. The machine’s wide dimensions allow it to accommodate cannulas up to 40cm in length.
