

## TECHNICAL DATA SHEET

### REDUX<sup>®</sup> ELECTROLYTE CREME

Description:	White conductive cream
Composition:	Emulsifiers, polymer, surfactants, humectant, sodium chloride, preservatives, and reverse osmosis (RO) water
Preservatives:	Chloroxylenol
Viscosity:	70,000-150,000 CPS (Brookfield Viscometer, Model RVT, Spindle T-C, 2.5 RPM)
pH Range:	5.5 – 7.5
Conductivity:	Not less than 10,000 micromhos/cm
Shelf Life:	Three years from month of manufacture
