

Supporting the very able child

Resource 11: Bloom's six levels – example 1

(Taken from *Enrichment Activities for More Able Children*, by David George)

	Examples of activities
Knowledge	<ul style="list-style-type: none"> • name the four main groups of food • cut pictures of fruits and vegetables from a magazine, label them and name your favorite
Comprehension	<ul style="list-style-type: none"> • compare two green vegetables according to their shape, size, taste and how they grow • would you eat these vegetables for breakfast, lunch or dinner? • find out how many calories these foods contain
Application	<ul style="list-style-type: none"> • make a collage of foods you like to eat • sow a large vegetable seed, watch it grow and draw the stages of its growth
Analysis	<ul style="list-style-type: none"> • list all the things a cow gives us • make up a crossword puzzle of tasty fruits, give good clues
Synthesis	<ul style="list-style-type: none"> • imagine you are a bean seed, write a story about how you feel as you grow • make up your own recipe for a really nutritious cake
Evaluate	<ul style="list-style-type: none"> • work out how nutritional your dinner was last night • "an apple a day keeps the doctor away" - what does this saying mean? • don't eat between meals – is this a good idea or not?
