

ADVANCED antiaging professional solutions

age element

Mechanism of Action:

Personalized antiaging solutions promotes cell regeneration mechanisms, enhancing the synthesis of essential proteins and cell longevity. Covers all essential phases of an antiaging treatment, allowing customization in each of its key stages.

Boosting Highlights:

- 100% customized treatment.
- Provides maximum results.
- Increases the expression of structural genes such as hyaluronic acid, collagen and elastin.
- Protects the skin from free radicals and enhances skin radiance.

PRESENTATION

10ml each/3ml session

ADVANCED PROTOCOL

PHASE 1

Diagnosis- consultation is key to a successful treatment. Each skin type is unique. What is your patients goals? What kind of results do they want to achieve? Each boosters provides a firmer, brighter and visibly younger skin. Customised sessions to build unique experiences with formulas that gather efficacy and sensoriality.

PHASE 2

Preparation- mesoestetic age element cleansing balm

- Spread the **mesoestetic age element cleansing balm (4ml/session)** with your hands over the clean, dry skin and start massage over the décolleté, neck and face. Moisten your fingertips until it becomes a light milk texture. Remove the product using a gauze or wet cloth.

Note: *mesoestetic age element cleansing balm texture transforms into wrapping oil during the massage and, in contact with water, it becomes a very light milky texture. Provides softness, and immediate deep moisture.*

Phase 3

Stimulation- mesoestetic age element resurfacing solution (combination peel)

Phase of renewal to enhance epidermal regeneration and optimise penetration of the active ingredients applied subsequently.

Active Ingredients: Combination of AHA and BHA: glycolic, maslinic, salicylic and mandelic acid to reduce imperfections, improves texture and enhances skin radiance.

Begin Stimulation.

- Soak **mesoestetic age element resurfacing solution (4ml/session)** with the two discs and begin the massage using first the smooth side of the disc on the décolleté, neck and face.
- End with the rough side of the disc to enhance the exfoliating action.
- Leave on for 5 minutes. (neutralization not required)

Phase 4

Activation- age element brightening booster · firming booster anti-wrinkle booster · redensifying booster and hydrabalance cream

Customised contribution phase based on the degree of aging and visible signs of age in the skin. Enhances radiance and firmness. Reduces wrinkles and provides density.

- Place in a bowl **age element hydrabalance cream (4 pumps)**, then add the **customized combination of boosters 3ml total**.
- Miz using spatula to obtain emulsion.
- Heat slightly in the hands, spread the product with fingers over décolleté, neck and face, and begin massage.

Phase 5

Boosting- mesoestetic age element crystal fiber mask or mesoestetic age element instant firming mask + mesoestetic age element instant firming mask gel.

mesoestetic age element crystal fiber:

- Remove the internal protective layer and apply the semiclear layer over the face.
- Remove the external protective layer and leave on for 20 minutes.
- After removing the mask perform a gentle massage to complete product absorption.

mesoestetic age element instant firming mask + mesoestetic age element instant firming mask gel.

- Pour age element instant firming mask powder into a bowl and then pour over it age element instant firming mask gel and mix for 30 seconds.
- Apply over the face and leave on for 15 minutes.
- Remove as a single piece, lifting it from the edges.

Note: mesoestetic age element crystal fiber mask or mesoestetic age element instant firming mask + mesoestetic age element instant firming mask gel must alternate between weekly sessions, total of 5 sessions every 7 days.

Protect- mesoestetic® moisturizing sun protection SPF 50+, mesoestetic® melan 130+ pigment control, mesoprotech nourishing antiaging oil, light water antiaging veil and/or mesoprotech 00mineral matt anti-aging fluid.

- Apply a nickel sized amount of mesoestetic® SPF that best corresponds with skin type and gently massage onto skin until fully absorbed.
