

# HOT & SLIM

Heat activated product to stimulate the microcirculation of the body.

## INDICATIONS

Hot & Slim

### Active Principles

Hedera Helix Extract, Equisetum Arvense Extract, Ruscus Aculeatus Extract, Methyl Nicotinate.

### Mechanism of Action

Its active principles are able to stimulate the superficial microcirculatory flow, in addition to providing a draining effect on the interstitial tissue.

### Indications

A heat activated and draining solution that aids in professional procedures for the improvement of cellulite.

### Application Technique

Mix from 3 to 5 drops of the heat activated solution with the INNO-DERMA Slimming or INNO-DERMA Firming creams and massage the areas that you want to treat with a circular motion until it is completely absorbed.
