

c.prof 210 depigmentation solution

Professional Use Only

Powerful combination of active substances that performs a correcting and lightening of pigmentary lesions with an antioxidant action. Its formula inhibits tyrosinase and slows down melanin synthesis unifying skin tone and restoring brightness.

ACTIVE INGREDIENTS

Tranexamic Acid
Nicotinamide
N-acetyl Glucosamine
Vitamin c

5 ml pH 6.0-7.0

PROTOCOL

Prep- mesoestetic® hydra milk cleanser or mesoestetic® gel cleanser

1. Cleanse the skin with **mesoestetic® hydra milk or mesoestetic® gel cleanser** using circular motions and remove with warm water using facial sponges
2. Tone entire face with mesoestetic **mesoestetic® hydratonic** using cotton pads
3. Degrease the skin using a professional degreasing solution using a gauze
4. Protect the mucous membranes on the face (tear ducts, nostrils and lips) using a protector balm

Method - mesoestetic® c. prof 210 depigmentation solution & mesoestetic® m.pen

5. Extract 2-2.5cc (face) and 3-5cc (body) of **mesoestetic® c. prof 210 depigmentation** solution with an extraction needle and syringe and dispense solution into a measuring beaker.
6. Prepare **mesoestetic® m.pen pro** by inserting new cartridge into pen, then press and hold the ON button. Choose desired speed and depth.
7. Apply an even layer of **mesoestetic® c. prof 210 depigmentation solution** using a facial brush to designated area and begin to microneedle chosen area. Repeat steps 6 & 7 until entire face has been treated.

Treat- mesoestetic® crystal fiber mask & mesoestetic® fast skin repair

8. Remove bottom layer of **mesoestetic® crystal fiber mask** and apply to the skin. Remove the top layer, adjust to the face and press into skin (Time on skin 20 mins)
9. Gently remove **mesoestetic® crystal fiber mask** and pat into skin until the product is completely absorbed
10. Apply a generous amount of post procedure **mesoestetic® fast skin repair** and gently massage until absorbed

Protect- mesoestetic® moisturizing sun protection SPF 50+, mesoestetic® melan 130+ pigment control and/or dermatological sun protection body lotion

11. Apply a nickel sized amount of **mesoestetic® moisturizing sun protection SPF 50+, mesoestetic® melan 130+ pigment control, and/or dermatological sun protection body lotion** that corresponds with skin type and gently massage onto skin until fully absorbed
