Clean, drinking water
at your fingertips

DEW Water Dispenser D800

Always wanted your very own dispenser to give you a good cup of ice cool water or hot drinking water instantaneously?

Introducing Hyflux premium DEW Water Dispenser D800, the top of our lifestyle range of products, which dispenses both hot and cold water immediately!

Enhance your everyday life with the DEW Water Dispenser D800, which dispenses filtered* water in the form you prefer – hot, cold, or even ambient temperature! Furthermore, our intelligent DEW Water Dispenser D800 is able to track the lifespan of your water filtration system at home, making your kitchen environment smarter.

Our ever-ready DEW Water Dispenser D800 uses sensitive touch keys which lights up in multi-colors, brightening the home environment. Our urban dispenser also comes with touch keys that are children and eco-friendly.

*Water filtration system not included

The Smart Control Panel

Compatible with Hyflux's water filtration system and many others
