

GAME OF THRONES CASTLE WALLS INSTALL

1. Remove glass and pull the playfield into resting position

2. Place the enclosed brackets onto the left ramp

3. Place the back wall piece against the back panel, make sure the notched out corner lines up with the cutout on the plastic ramp and the silver metal bracket sits behind the ramp

4. Attach the middle wall piece onto the first bracket and then the last wall piece onto the second one by using the provided wood screws

5. Make sure to check for clearances prior to starting the game play.
