# Ghostbusters Public Library Installation

1. Turn the game off
2. Rest the playfield in the extended service position
3. Remove the existing library plastic

4. Place the wiring harness through from underneath the playfield
5. Attach the enclosed light strip inside the new Library mod

6. Connect the alligator clips to any desired GI bulb (*some existing shrink wrap on the bulb terminals may have to be slightly pulled back*)
7. Install the Library mod with the two existing screws on top of the playfield
8. Turn the game on, make sure the mod lights up (*in the event it does not, simply reverse the alligator clips onto the bulb terminals*)
9. Check for clearances prior to lowering the playfield
10. Play and Enjoy!
