 - Does not apply to Rent-to-Own sales (Cash, Check, or Credit Card only).
 - Does not apply to heavily customized builds & Oversized Buildings
 - Building cannot be modified after it has been delivered to the customer.
 - The 90 Day period begins once your shed is delivered.

10 Year Limited Manufacturer Warranty

- Our 10 year limited manufacture warranty covers your structure from manufacturer's defects that are not caused by normal wear and tear
- Labor and materials on manufacturers defects are covered for one year from manufactured date
- Materials are prorated to extent of warranty
- Any issues arising due to improper site conditions and site access conditions are not covered by this warranty
 - Any issues arising as a result of heating your structure, or if your ventilation is blocked or restricted due to lack of proper maintenance, are not covered
 - Our warranty does not cover rodent or pest activity in, on or around our structures at any time
 - This warranty is not transferrable

What Size Buidling Do I Need?

This is our #1 question and one of the hardest for us to answer since every customer's storage needs are unique. It is a great question since buying a building from Cedar Rock Barns, LLC is a **ONCE IN A DECADE** decision, it is important to get it right. It has got to fit all of your personal items, equipment and adapt to your needs over the years.

Our buildings come in a variety of sizes and styles to accommodate your needs.

Small: We consider all buildings under 120 square feet to be a "Small Shed". These outdoor buildings are good for storing lawn and garden equipment, hanging tools, as well as push mowers and gas cans.

Medium: Buildings between 120 square feet to 200 square feet we consider "Medium Buildings". These buildings are great for holding larger garden equipment like riding lawn mowers, snow blowers, motorcycles and more. They also work great for small workshops / she sheds.

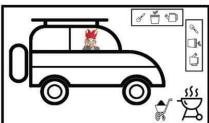

Large: Buildings 200 Square feet to 768 Square feet are considered "Large Buildings" and have many uses from tool shops, vehicle storage, cabins, tiny homes, offices and concession stands.

We recommend planning for about 25% more space than you currently need so that your building can grow with you.

8x8 64 Sq. Ft.

10x10 100 Sq. Ft.

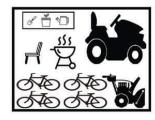

16x48 768 Sq. Ft.

12x16 192 Sq. Ft.

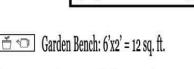

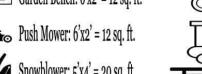

Wheelbarrow (Standing): 2'x2.5' = 5 sq. ft.

Chairs (Stacked): 2.5'x2' = 5 sq. ft.

16x32 512 Sq. Ft.

Motorcycle: 8'x4' = 32 sq. ft.

Golf Cart: 9'x5' = 45 sq. ft.

Bicycle: 5'x2' = 10 sq. ft.

BBQ Grill: 4'x3' = 12 sq. ft.

Snowblower: 5'x4' = 20 sq. ft.

Car / SUV: 18'x10' = 180 sq. ft.

Frequently Asked Questions

Are all buildings fully assembled?

Yes, your building will be delivered fully assembled and ready to use!

How much do I need to order?

Purchasing: 25% down & remaining balance at delivery Rent To Own: First month + Security Deposit

Can I Finance My New Building?

Of course! We offer financing as well as rent to own on all of our buildings. We work with select lending partners & rental companies to bring easy and affordable payment options for all of our customers.

I'm ready to order, whats the next step?

You can place your new order in person at one of our sales locations, over the phone or online at www.CedarRockBarns.com

Do I need a permit for my building?

That varies by town and municipality. Check with your local code office to see what the requirements are for your location. They will provide you with an application for a permit if needed and let you know the process you need to take. If you have any questions about the size and details of your structure, please contact us and we will be happy to help.

What is the snow load?

All of our buildings are built with a minimum snow load of 40 lbs. / sq. ft. If your location requires a higher snow load contact us & we can add in rafters & bracing to accommodate.

What are the advantages of a prefab building vs. DIY Kits & On Site Builds?

Prefab structures are superior in quality and more cost effective to build for a number of reasons. They are manufactured in our facilities, which means there are no delays due to weather. Plus, our streamlined construction process allows us to deliver high quality biuldings fast and efficient.

What kind of foundation do I need for my new building?

For the longevity and safety of your storage building, you must provide a hard, level surface for your buildings foundation. We Recommend a stone base with #2 crushed stone (unwashed). This stone pad should be 4" – 6" thick, leveled and tamped. The stone pad should be at least 1 foot (12 Inches) larger than the footprint of your structure, leaving at least 6 inches on either side of your building.

How long will it take to get my new building?

Timeframe varies on location, time of year, our workload and they type of building that you are purchasing. We try to keep new buildings around 3 - 4 weeks and in stock buildings to about a week or so. We will provide an approximate time frame for delivery at the time of your order and deposit. Give us a call any time to ask what the current lead times are.

Can you deliver down a large hill?

Our mule delivery system should be able to deliver your new building anywhere a truck or SUV can drive

Advantages Of Our Rent To Own Program

Return The Building Any Time With No Further Obligation

Should life throw you a curve ball or you simply don't need the building, you can return your building at anytime at no further cost or obligation. Compare this to financing with a bank where you are forced to continue payments or experience foreclosure

You Can Pay Off Early & Save Money

If you wish, you can take the entire term of your rental agreement to complete your payments, or you can simply pay the remaining balance off early. There is a discount for completing your payments early

Save Money & Save A Trip Across Town

Most mini storage units cost more every month than having a new building right in your backyard. Plus, why drive all the way across town to store the important things in your life, when you could have a much larger storage shed steps away from your house? More pace & less money....

Everyone Is Approved! (Must Be 18 or older)

Thats right! As long as you are over 18 you are approved for our rent to own program on all of our buildings up to \$15,000.

Site Prep & Delivery

All of our buildings are delivered fully built and ready to use. We have specialized trucks and trailers equipped with a Mule Delivery System that allows us to maneuver the building to the shed pad with minimal impact on your lawn. The buildings can be placed directly on the grass but it is recommended to prep your site with 4"-6" of crushed stone to create a solid level base with good drainage.

- Site Must Be Solid & Level
- 4" 6" Of Unwashed Crushed Stone Recommended
- Clear Path With Minimum Of 1' On Each Side To Site
- Delivery Mule Can Go Anywhere A Truck / SUV Can Drive

Visit www.CedarRockBarns.com/Site-Prep for more info and delivery videos
