Your Essential Journey Starts Here

Our company mission is to provide the highest quality aromatherapy products at the best price with an emphasis on safety. We provide detailed safety information on each product's page and consult with an aromatherapist on a regular basis.

Our essential oils are tested for purity with gas chromatography- mass spectrometry to ensure there are no impurities in the product. The organic material is sourced worldwide in its native environment and bottled here in the United States in a facility that exceeds the safety standards.

Our jewelry is highest quality and designed for everyone. All jewelry pieces come with a 90 day warranty and 3 total inserts to diffuse the oil- either 3 lava stones or 3 diffuser pads. We have styles suitable for men and children too, great for school and work.

So flip through our catalog, get some ideas, and give us a call. Our online store at www.destinationoils.com has detailed product information on each item as well. We are always happy to answer any questions you may have about our products or aromatherapy in general.

Be safe, happy, and healthy-

Kara
