Care Instructions

Vacuum your rug regularly as shedding of loose fibres will occur with a new rug. Promptly clean spills by blotting with a clean, undyed cloth. Do not dry clean or use harsh chemicals that could damage or fade your rug. Never fold your rug for storage or keep in an airtight bag. Avoid direct or continuous exposure to sunlight and rotate your rug to promote even wear. Professional cleaning is recommended on occasion to ensure the long life of your rug.

Manufacturing Variations

Size - Can vary by +/- 3%.

Colour - Rugs are primarily made from natural and undyed fibres. Every effort is made to ensure there is minimal colour variation however some variation can be expected.

Pop ups - Due to the nature of weaving, there will be short fibres popping up while the rug settles. These can be trimmed or pushed through.
