

OWNER'S MANUAL – THE FIRST COLLECTION

TUSENÖ  
GÖTEBORG

*Born on the Swedish west coast*

# The story of Tusenö

At Tusenö we have always known where to find our inspiration – The unique birthplace of Tusenö. The place we refer to is the Swedish west coast. A beautiful coastline filled with islands, fishing villages and above all – stories to be told.

The name, Tusenö, comes from the words "tusen öar", Swedish for "thousand islands". We choose this as a tribute to our home, as the coastline often is referred to as the coast with the thousand islands.

*– Passion, design and attention to details are all keywords to what today has become Tusenö –*

It's important to us that our passion for watches shines through in everything we do. One of our guiding principles at Tusenö is to create watches that not just pleases the eye for a brief second, but instead will keep you intrigued for years to come. A Tusenö will always be a classic, simple timepiece with subtle details and touches that gives you that little extra.

## THE FIRST COLLECTION

---

Years of inspiration from the Swedish west coast have been translated into our first series of watches, the Tusenö First – coming in both 38mm and 42mm.

A beautiful mix of materials, finishes and subtle color variations leaves you with an extraordinary watch design and the perfect everyday watch.

## OPERATING INSTRUCTIONS

**The First collection is powered by the Seiko VK64 mecha-quartz hybrid movement. Below is an overview of the functions of the movement.**

- A) Crown/Time setting  
Pull out the crown fully and rotate the crown either clockwise or counter-clockwise to move the time forward or backwards respectively.
- B) Chronograph Start/Stop  
Push in the top pusher button to start or stop the central chronograph seconds hand.
- C) Chronograph Reset  
Push in the bottom pusher button to reset the central chronograph hand to 12 (zero).  
**\*IMPORTANT\* - DO NOT RESET THE CHRONO HAND UNLESS IT IS STOPPED. RESETTING WHILE IN OPERATION MAY CAUSE DAMAGE TO THE MOVEMENT.**
- D) Chronograph Seconds Hand  
The central chronograph hand will beat 5 times per second when in operation. By default, the chrono seconds hand is reset to zero at the 12 o'clock position.

- E) 24 Hour Indicator  
The right sub-dial displays the current time in a simplified 24-hour format. The time displayed on this dial is linked to the main hour and minute hands and cannot be adjusted separately.
- F) Chronograph 60 Minute Indicator  
The left sub-dial displays a count of minutes accumulated while the central chrono hand has been in operation. A maximum of 60 minutes can be counted in one cycle.

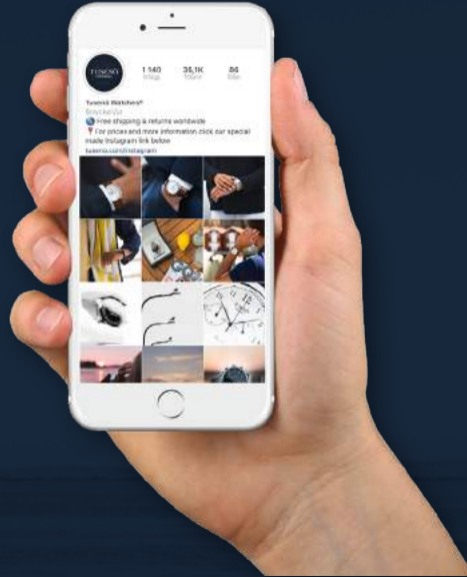

**Battery life:** The standard battery life for the VK64 movement is 3 year.  
Full technical information on the Seiko VK64 movement can be found on the Time Module website: <http://www.timemodule.com>

## SOCIAL MEDIA

---

The fact that we ship worldwide means that people are wearing Tusenö watches all over the globe. We would love to see where and when you wear your watch.

Please take pictures, post on your social media and use our hashtag #tusenowatches and we will feature your photo in our channels.

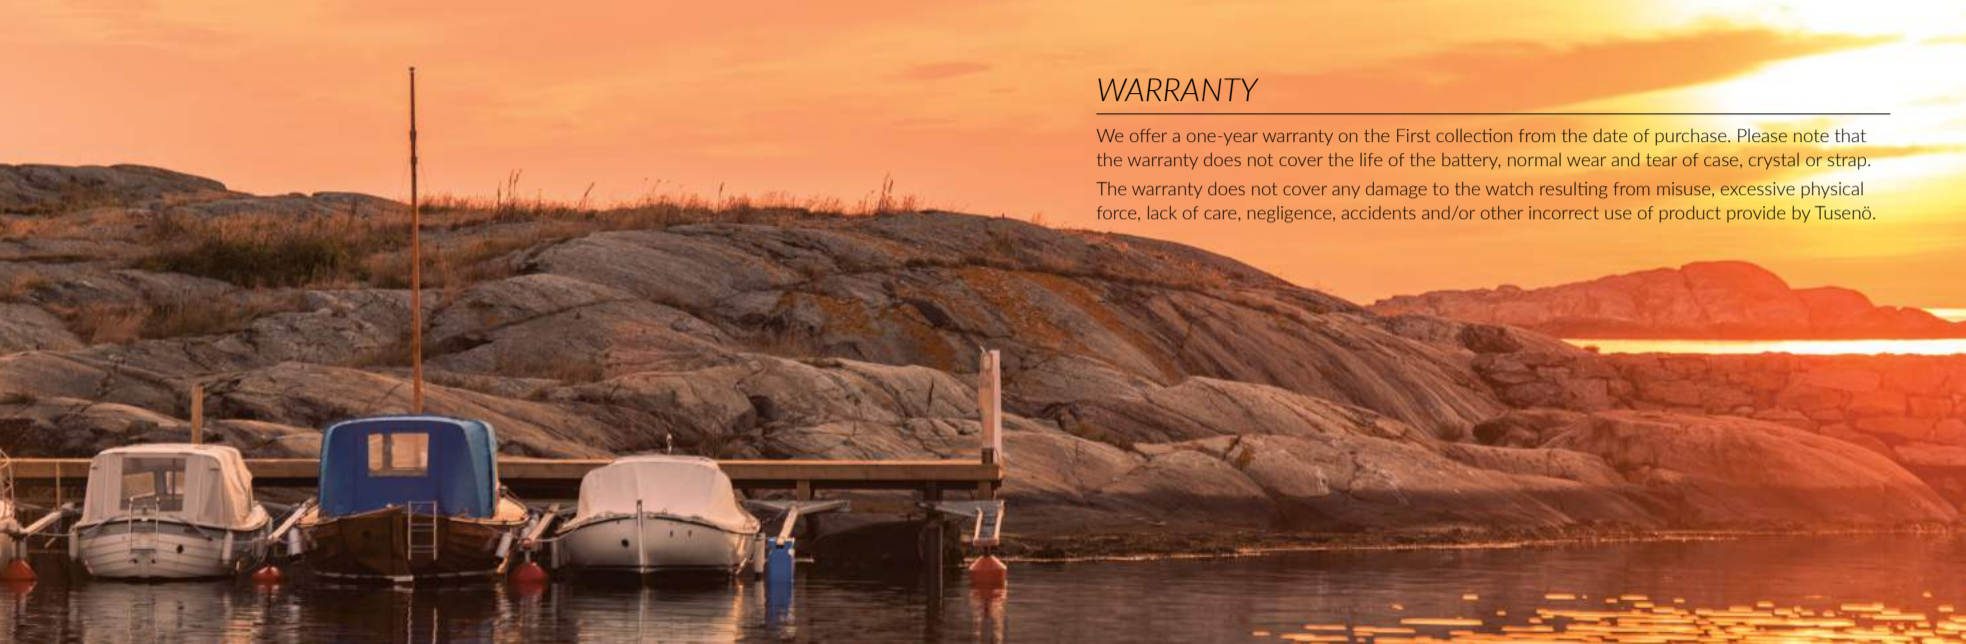

## INSTRUCTIONS

---

Is it the first time you use a butterfly clasp, don't know how to adjust the size of your mesh band or maybe want to see how to change strap? On our website we have put together a few step-by-step guides (video and pictures) to demonstrate how to operate your new timepiece.

Visit the following link [tusenowatches.com/customer-service](https://tusenowatches.com/customer-service)

## WARRANTY

---

We offer a one-year warranty on the First collection from the date of purchase. Please note that the warranty does not cover the life of the battery, normal wear and tear of case, crystal or strap.

The warranty does not cover any damage to the watch resulting from misuse, excessive physical force, lack of care, negligence, accidents and/or other incorrect use of product provide by Tusenö.
