

# TRAVERSE

NERSION 1.0

# What's **Included**

## Traverse Strap Mount [TRVS-QRS]

Quick-Release Plate | Traverse Mount Hex Key | Shorter Set of Thumbscrews

# Attach to **Strap**

#### Step 1

Loosen both thumbscrews at the same rate to prevent binding.

Traverse is equiped with retailing rings on the back of the thumbscrews to prevent them from falling out.

# Step 2

Once thumbscrews are loose but not removed, continue to release one thumbscrew until free of the rear plate but don't pull it through the front plate

#### Step 3

Wrap Traverse around strap or belt and secure.

#### Quick-Release Plate Installation

## Step 1

Slide Gold Lock Switch to unlocked postion.

Red Indicator tab will show. (Depicted in image on right.)

#### Step 2

Hold Traverse in left hand and place left thumb on Gold Lock Switch.

#### Step 3

Using left thumb, pull counterclockwise on Gold Lock Switch. With your opposite hand, pull on the screw threads to release.

# Step 4

Using provided Hex Tool or coin, secure the Quick-Release Plate to the camera.

#### Attach to Traverse

#### Step 1

For easy installation, slide the Gold Switch to the locked position. Make sure arrow is showing, not red indicator tab. (Depicted in image on right).

This will lock the rotation plate of the Traverse, making it easier for insttallation.

#### Step 2

Angle your camera so the Quick-Release Plate is partially engaged with the Reciever Teeth.

#### Attach to Traverse (Continued)

#### Step 3

Push down until fully seated in the Traverse and you hear the Quick-Release Plate click into place.

# Step 4

Before releasing your device it is best practice to give it a tug or shake to ensure both Receiver Teeth have seated properly.

Check by looking at the angle of the Quick-Release Plate to the Traverse. They should be sitting flush and parallel. (Depicted in image on right).
